

Julie-Mai PARIS

First-year PhD student with B. GUENET and S. ABIVEN

Improving modeling of carbon and nitrogen cycles in the IPSL Land Surface Model ORCHIDEE with empirical data

Geology Laboratory, Geosciences Department, ENS-PSL, 24 rue Lhomond, 75005 Paris

CONTACTS

MAIL

[paris\[at\]geologie.ens.fr](mailto:paris[at]geologie.ens.fr)

PERSONAL WEBSITE

jm-paris.github.io

TECH SKILLS

PROGRAMMING

R, Python, LaTeX

(advanced)

Fortran, bash (medium)

SOFTWARES

Office Package

Krita (digital art)

OS

Linux, Windows

LANGUAGES

French (native)

English (fluent)

German (intermediate)

French Sign Language

(intermediate)

Swedish (beginner)

CERTIFICATIONS

Driving license (2025)

First aid certificate

(renewed in 2026)

HOBBIES

Swing dances

Drawing and painting

Violin

DIPLOMAS

2025 • ENS-PSL Diploma (Earth Sc. Major, Environment Minor)

2024 • Master's degree (Earth, Planet and Environment Sc.)

2021 • Bachelor's degree (Earth Sc.)

RESEARCH INTERNSHIPS

2025 • ENS-PSL, Geology Laboratory, Paris, France (5 months)

• S. ABIVEN

Building a global pyrogenic carbon database

2024 • Jussieu, iEES, Paris, France (5 months) • X. RAYNAUD

Modeling the interactions of microbes in soil in relation to their spatial organization using R

2023 • ENS-PSL, Geology Laboratory (4 months) • P. BARRE

Evaluation of stable carbon in French forest soils using statistical methods and random-forests

2022 • Stockholm University, Department of Physical Geography, Stockholm, Sweden (5 months) • S. MANZONI

Computer modeling of the trade-offs between greenhouse gases emissions and irrigation in rice fields

2021 • ENS-PSL, Geology Laboratory (6 weeks) • L. SERENI

Evolution of soils copper loss to aquatic systems under different scenarios of climate change in Europe

TEACHING EXPERIENCE

2025-2026 • ENS-PSL, Geosciences department (1 year)

Teaching assistant for Bachelor's and Master's degree students in mathematics and biogeochemistry

2021-2025 • Lycée Saint-Louis, Paris, France (bimonthly)

Oral examiner for geology and biology weekly interrogations in BCPST preparatory classes

2020-2021 • TALENS, Pôle PESU, ENS-PSL (8 months)

Volunteer tutor for high school student to popularize Earth Sciences in preparation for their higher education

PUBLICATIONS

Sereni, L., Paris, J.-M., Lamy, I., Guenet, B. (2024). *Estimations of soil metal accumulation or leaching potentials under climate change scenarios: The example of copper on a European scale*. SOIL, 10(1), 367–380. <https://doi.org/10.5194/soil-10-367-2024>

[PREPRINT] Paris, J.-M., Nunan N., Raynaud X. (2026). *Modelling the effects of microbial spatial heterogeneity on soil metabolic networks*. Soils and biogeochemical cycling. <https://doi.org/10.5194/egusphere-2026-1841>

PRESENTATIONS

ON-SITE POSTER PRESENTATION

Paris, J.-M., Raynaud, X., and Nunan, N. (2026). *Spatial modelling of soil microbial interactions and the emergence of purely spatial interactions*, EGU General Assembly 2026, Vienna, Austria, 3–8 May 2026, EGU26-11046, <https://doi.org/10.5194/egusphere-egu26-11046>

ART EXHIBITION PROJECT LINKING SCIENCE, PHILOSOPHY AND LITERATURE

Paris, J.-M. and Aguiriano, H. *Projet OEILLIEN: restitution seminar* (2025) and art exhibitions (2025 May and September; 2026, February-March in ENS-PSL, France), <https://ceres.ens.fr/?Projet-Oeillien>

OTHER PROFESSIONAL EXPERIENCE

- 2022-2025 • Herräng Dance Camp, Sweden (5 weeks in total)
Volunteer in various teams: activities, kitchen, gift shop, tent dismount and cleaning
- 2023 • Sampling assistant, TREC (Traversing European Coastlines) in Turku, Finland (1 week)
Sampling of soil, plant, atmospheric particles; sampling material preparation and processing.
- 2022-2023 • CDC Biodiversité, Paris (6 months) • V.NOREVE
Intern for the integration of ecosystem services in the tool “AgriBEST”, for self-assessment of the biodiversity impact of agricultural practices
